CONSENT FORM

To assist our continuous efforts to provide high quality educational opportunities for the students of Orleans Parish, the Orleans Parish School Board ("School Board") contracts with various private entities. These entities perform a wide array of services intended to enhance the educational experience of our students. Services that are provided to the School Board by private entities may require the use and transfer of your child's personally identifiable information. Personally identifiable information, for example, may include your child's name, date of birth, or other information which alone or in combination can reasonably and specifically identify your child.

Examples of the types of services that require the use of personally identifiable information include, but are not limited to:

- publication of annual yearbooks
- photography services for school pictures or school publications
- publications in periodicals of the honor roll or other student achievements
- publication of graduation programs
- information for the purchase of class rings
- creation of sports programs
- bus routing and transportation services
- Internet and Wi-Fi access

The personally identifiable information shared or transferred is for the purpose of and necessary for the performance of services conducted on behalf of or provided to the School Board or its students. The private entities are bound by federal and State confidentiality laws and will take affirmative steps to protect student information.

Prior to the School Board sharing or transferring your child's personally identifiable information with or to any individual or entity which may perform services that require access to your child's personally identifiable information, Act 837 of the 2014 Louisiana Legislative Session requires consent, in writing, by the parent or legal guardian of each student. Unless allowed under federal or another Louisiana law, without this written consent, the School Board shall not provide your child's personally identifiable information to any individual or entity with whom the School Board has a contract for services (as described above).

I HEREBY CONSENT to the School Board's release of my child's personally identifiable information to any person or entity providing services to the School Board and who requires my child's personally identifiable information in order to perform those services.

I further understand and acknowledge that this consent is valid for the entire _____ school year.
